

## GROW YOUR BUSINESS CONNECTIONS

Taking you forward into high speed, always accessible Broadband, Vialtus Solutions ADSL gives you the performance and connectivity required to meet the needs of intensive and demanding applications of modern business.

Vialtus Solutions ADSL also gives you the flexibility of unlimited bandwidth, enabling you to cost effectively tailor your Internet connection to meet requirements.

Delivered as a powerful, business-class connection, Vialtus Solutions ADSL is ideal for remote working.

Vialtus Solutions ADSL delivers what you need to work effectively – the speed, power and flexibility of a Broadband connection, combined with a business quality Internet solution.

At Vialtus Solutions, we recognise that running a business or teleworking demands top quality Internet access. With Vialtus Solutions ADSL you can rest assured that you'll receive the quality of service, performance and flexibility you would expect from a service tailored for demanding business use.

Vialtus Solutions specialise in providing solutions to business - we understand your needs and have tailored products to meet them.

The Vialtus Solutions ADSL service is delivered at the highest speeds available with upto 8Mbps download speed, all services receiving a minimum of 256Kbps upload.

## **BENEFITS OF VIALTUS SOLUTIONS ADSL**

- Up to 8Mbps Broadband delivered as standard
- 90-day contract - no long term commitments
- Suitable for businesses
- 24x7 access to our Technical Support line
- Dedicated account management - your personal Vialtus Solutions contact.

## **OPTIONS AVAILABLE**

Vialtus Solutions ADSL is available through two options, **Vialtus Solutions ADSL** and **Vialtus Solutions ADSL Premium**. These services have been created so that you can choose your connectivity according to the level of throughput that you require.

## **VIALTUS SOLUTIONS ADSL**

Vialtus Solutions ADSL is suitable for the lighter user and is particularly suitable for Teleworkers. Vialtus Solutions ADSL is not restrictive on the amount of bandwidth you can use per month, this service offers you a fixed monthly fee that is real value for money.

**Note:** Although we do not limit downloads for Vialtus Solutions ADSL, we may in exceptional circumstances limit throughput where usage is unreasonable high.

## **VIALTUS SOLUTIONS ADSL PREMIUM**

With higher throughput, Vialtus Solutions ADSL Premium is suitable for those who use the Internet more frequently. With ADSL Premium, the network is managed so that the average user throughput, in both upstream and downstream directions, is higher than the standard Business service. ADSL Premium provides a professional service and consistent level of performance.

If you work from home or a small office and require a secure and supported Broadband connection then Vialtus Solutions have a range of ADSL services to fulfil your requirements.

To compare these services and how each will support your business communications, the comparison tables overleaf shows a clear picture of what each service offers you, helping you to make the right choice, according to your needs.

Both services are extremely flexible, with a minimum contract period of just 90-days, giving you connectivity to the Internet all day, every day. These services have super-fast download speeds of up to 8Mbps.

### **24x7 Technical Support**

With our ADSL connectivity options, you get 24x7 access to our Technical Support line, where our dedicated Technical Team will assist you with all your ADSL enquiries.

### **Dedicated Account Manager**

Your personal contact at Vialtus Solutions supplying dedicated support on just about any question you may have.

Providing you with the comfort factor and knowledge that your business is put first.
