

GROW YOUR BUSINESS CONNECTIONS

Taking you forward into high speed, always accessible Broadband, Vialtus Solutions SDSL gives you the performance and connectivity required to meet the needs of the intensive and demanding applications of modern business.

Vialtus Solutions SDSL is part of the business focussed access services of the Vialtus Solutions DSL portfolio, providing a high speed symmetric Broadband connection on a dedicated line, ideal for small businesses.

Vialtus Solutions SDSL delivers what you need to work effectively - the speed, power and flexibility of a Broadband connection, combined with a business quality Internet solution.

At Vialtus Solutions, we recognise that running a business demands top quality Internet access. With Vialtus Solutions SDSL you can rest assured that you'll receive the **quality of service, performance** and **flexibility** you would expect from a service tailored for demanding business use.

Vialtus Solutions SDSL is provided at a speed of 2Mbps to support your business requirements, now and into the future.

With the increasing number of business applications requiring high levels of bandwidth, Vialtus Solutions SDSL delivers a symmetrical service at the highest speed available, providing you with data transfer speeds of 2Mbps in both directions.

If your business requires this symmetrical amount of bandwidth to and from the Internet, then Vialtus Solutions SDSL is ideal to support the applications modern businesses depend upon. It is a cost-effective alternative to traditional access technologies such as dedicated leased lines.

Vialtus Solutions SDSL is ideal when utilising web or e-mail servers and VPN (Virtual Private Network) applications to support your business infrastructure and communication needs. It enables and assists remote working and people who regularly need to upload large files - a powerful business tool. Ideal for today's modern small businesses.

BENEFITS OF VIALTUS SOLUTIONS SDSL

- **Flexible Internet connectivity** - with varied bandwidth options available
- **Static IP**
- **2Mbps Symmetrical speed**
- **Low contention ratio** - 10:1
- **A cost-effective option** - dedicated access technologies.
- **24x7 Technical Support** - 24x7 access to our Technical Support line
- **Dedicated account management** - your personal Vialtus Solutions contact.

Alongside the benefits of a symmetrical dedicated line, Vialtus Solutions SDSL provides you with a contention ratio of only 10:1, so that you can avoid peak Broadband traffic delays and enjoy a continuous, high level of performance.

24X7 TECHNICAL SUPPORT

With our SDSL connectivity services, you receive 24x7 access to our Technical Support line, where our dedicated technical team will assist you with all your SDSL enquiries.

DEDICATED ACCOUNT MANAGER

Your personal contact at Vialtus Solutions who is able to help you with just about any question you may have. They will be able to forward you to the person that can help in any situation that arises.
